5 Rules for our Practised Safety!

1. Think first - act later:

Avoid any hustle and bustle. When in doubt opt always for safety!

2. Think about others as well:

You are responsible for yourself and your colleagues!

3. You are the professional:

There is the perfect tool for each job!

4. Be attentive:

Use your personal protective equipment and observe the safety rules.

5. Your opinion counts:

Report any safety issues at once and make suggestions for improvements.

- + **Working conditions act (ArbSchG): Law concerning the implementation of occupational safety measures for the improvement of safety and health of employees during work**
§ 15 Obligations of the Employees
- + (1) **The employees have to take care at work** for their own safety and health according to their possibilities and according the instruction and directive of the employer. Pursuant to Sentence 1, the employees do also have to take care for the safety and health of those persons, who are affected by their activities and omissions at work.
- + (2) In the meaning of par. 1, the employees especially have to use machines, devices, tools, working materials, means of transport and other working equipment and safety devices and the provided **personal protection equipment as intended.**
- + Also defect equipment and tools have to be reported to the superior (Obligation acc. §16 ArbSchG)!
- + **Wastes of hazardous substances have to be taken along!**

Head protection and foot protection are minimal equipment!

First Aid

Accidents have to be reported in this enterprise as well, do not shy away, it's for the sake of your own health!

Take a look around before you start your work and explore the emergency exits!

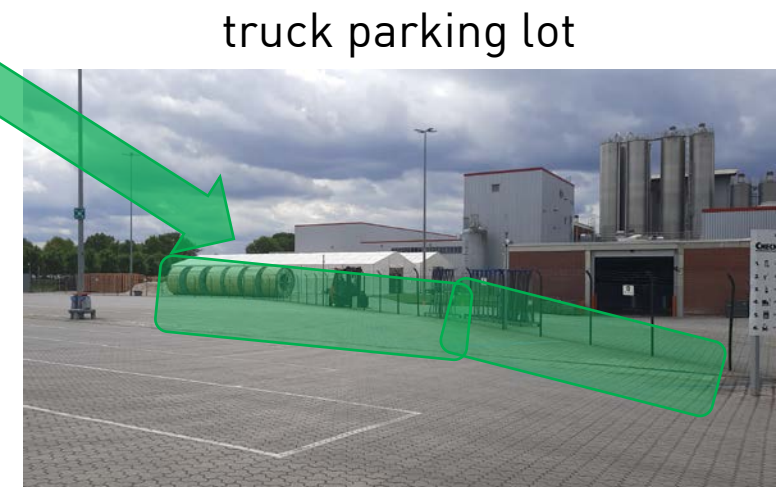

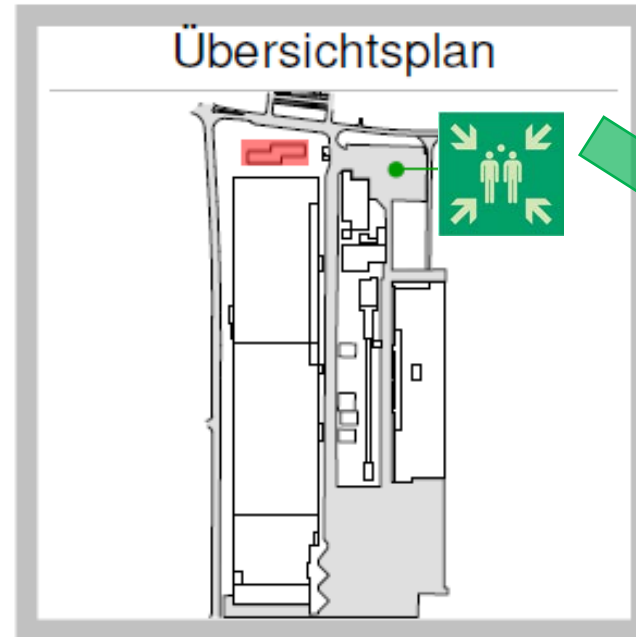

- Where is the first aid equipment?
- Where is the eye showers?
- Where is the emergency phone, the numbers 112 and 110 are activated!
 - Inform the doorman (phone -899) after ordering an emergency vehicle!
 - If necessary, instruct further persons!

Assembly Point

In case of a general alarm, you have to leave the premises immediately and go to the assembly point!

Ask persons to leave the premises, even if the work is interrupted.
